HW2 Grades - Lidan and Tom

I am not sure why, but when I try print your ipynb it gives me a 180 page document that my computer cannot render. So here are your comments.

Theory Questions

Q3) -5. I do not agree with your answer. Non-liner SVM would do just fine. You would need to give a much stronger argument against it to get the grades here.

Coding Questions

Q3) -1 missing labels.
